Educate Yourself!

The Internet can be used as a powerful tool for growth; you can teach and learn many things by yourself! Education serves many purposes, among them: to help us understand things and also to understand ourselves, to help us make connections and decisions, to show others we are capable; to name but a few.

Basic academic education is not the key to knowledge. Knowledge involves many facets to learning: academic, experience, learning about yourself and your values, listening, learning to live in society, and more. The key to knowledge works when we integrate all of the aspects to make decisions and set goals.

Fair Shake brings together many free, online self-directed education resources for you to engage in education!

Knowledge is power. Information is liberating. Education is the premise of progress, in every society, in every family. ~ Kofi Annan
