Records marking a birth, death or fetal death are known as vital records. Certificates issued from the official records are used for everything from applying for a driver's license to settling an estate after someone dies. Sometimes these certificates can become misplaced, or you need additional copies of these certificates. Our Bureau of Health Statistics and Registries is the official custodian of vital records dating back to 1906 for the Commonwealth of Pennsylvania. This website outlines our requirements for obtaining certificates for births, deaths and fetal deaths that occurred in Pennsylvania since 1906.

#### **Health - Legal Support for Health Care STATEWIDE SUPPORT!**

The PA Health Law Project works to ensure everyone has access to health care. Outside of advocating for the right to health care, the Law Project provides free legal services to any low-income resident of Pennsylvania having difficulty accessing publicly funded health care, whose health care has been terminated or reduced, or who have been denied Medicare (or similar health care programming). Additionally, the Law Project helps eligible residents apply for Medicare, responds to issues of denial of service (i.e. for prescriptions), and anyone struggling with their health care costs. The only requirement is income related, otherwise, the program is nondiscriminatory - there is a helpline which can be utilized for base information by anyone, regardless of income. If you're in need of assistance, or have a question take advantage of the helpline by dialing: 1-800-274-3258
