Employment Tips

We often have to work our way up to the job we want; either because it is not available when we go to find it or we need more experience, education, preparation or time to get ready. Although we will spend time working at jobs that are not our preference, we can enjoy the interim more when we stay focused on our goals.

Start by asking yourself:

- What kind of job or career do I want?
- What am I willing to do, learn or sacrifice to get that job or career?

Before venturing out into the world of work you will have to obtain necessary documents.

The most frequently requested documents are:

- Birth Certificate
- Driver's license or Basic Identification
- Social Security Card

The birth certificate and driver's license forms offered in our Employment Documents are samples. You can find links to the applications that you need in our Resource Directory!

Next, ask yourself the following questions

- What occupations or industries in your area are in need of employees?
- What are your employment limitations due to your particular crime?
- What is the income you need in order to pay for housing, food, energy, phone, child support, restitution, transportation, etc? (check out our [Build a Budget Worksheet](#))
- Which strategies do you think would be most effective for "selling" your attributes?

To prepare to apply for a job you may want to create the following worksheets:

- Inventory your work history in and out of prison
- List your training, skills, limitations, and health considerations
- Gather all the information you will need to fill out employment applications. Are you ready to fill them out online? (Several companies only accept online applications.)

Considerations and Preparation

What are your employment resources?

- Classified ads (in the paper or locally found on-line)
- Applying for jobs with companies you want to work for
- Job Assistance and Job Training centers
- Craigslist, Monster.com, other job-search websites

Skills Assessment and Personal Strengths Evaluation

Consider taking a free online self-assessment test help us see what careers we are suited for. If you type the phrase 'self-assessment test' into any search engine, several options will be available for you to check out.

Resume' and Interview tips:

Two good places where you get the chance to show a company why they cannot afford NOT to hire you. Keep these tips in mind as you write your application or resume', and prepare for job interviews:

- Be cheerful in your in-person or telephone job interviews.
- Talk about the benefits of your experience and the relevant expertise you offer.
- Speak about the value you would bring to the company.
- Share stories in the job interview about success in prior assignments.
- Talk about your ability to work with a diverse group of people.

Typical Barriers to Employment:

- Lack of updated resume
- Appropriate clothing for job search
- Transportation
- Stable housing
- Substance abuse
- Poor interview skills
- Poor job search skills
- Not a high school graduate
- No documentation (ID, Social Security card)

SMART: What is your strategy for overcoming barriers and creating success?

You can create a clear strategy by following SMART guidelines:

Specific Measurable Attainable Realistic Timely (or Tangible)

Specific – what is the specific goal you wish to achieve?

Can you answer these questions?

- Who do you need to be involved?
- What do you really want to accomplish?
- When do you want to accomplish it?
- Where do you need to be to accomplish it?
- Why do you want to achieve this goal?
- Which things do you need to get in order and which are the constraints to achieving your goal?

Measurable – How will you know when you've achieved your goal? What criteria have you set up to measure your progress and reach your target dates?

Attainable – Can you see yourself achieving this goal? Can you see the path to get there and then see yourself in that place of having reached the goal?

Realistic – Are you willing and able to achieve the goal?

Timely – How long do you need to achieve your goal? Work out your goal date and then the smaller goals that must be met to meet that goal date?

Tangible – Imagine: can you taste, touch, smell, see or hear the results of achieving your goal?

Interview Tips

Before you head to your interview, ask yourself these questions:

- Do you really want this job?
- Are you qualified for the job?
- Do you believe you can get the job?
- What attitude and information must you deliver to the employer to get the job?
- Are you ready for your interview?

If you decide you really want to get this job, consider these tips:

1. Keep your answers short yet full of information, unless you are asked to clarify. Try to put yourself in the interviewer's shoes; asking the same questions of many applicants! Fine tune your answers to the Sample Interview Questions and bring your authenticity and vitality to the interview.
2. Determine what your key strengths and assets are. Be sure to state them confidently a couple of times throughout the interview.
3. Prepare for a variety of interview questions. Consider the challenges you have overcome, the difficult interpersonal situations that you resolved with others, and several success stories.
4. Describe specific situations and accomplishments. Generalities fail to show the interviewer your strengths and assets and how they can benefit the company and the position that is available.
5. Put yourself on their team. Show how you fit in with the existing work environment and company culture. During the interview, align your language with the language of the team.
6. Observe your non-verbal communication. Are you saying what you mean to say? Practice answering some of the Sample Interview Questions in front of a mirror to see if your eyes and your gestures agree with your words.
7. Ask questions. Is this where you want to work? Find out what you need to know to accept the job. Also, the interviewer will see that you are taking interest in the company and work environment. That is an important quality in a team player.
8. Be sure to talk WITH the interviewer and not AT the interviewer. Interviews are stressful enough for both parties. Keep it human.
9. Research the company. Is it a right fit for you? Can you get behind the mission of the company? How much can you know about the work and the work environment before the interview?
10. Apply for jobs that you are skilled for and that you can appreciate...even if only as a stepping stone to your next job. If you truly want the job, you must be able to compete successfully with your competition. Authenticity shines through your words and your non-verbal communication.
