Families in Crisis supports families whose lives and relationships have been disrupted when a family member enters the criminal justice system; strengthens communities by helping offenders rebuild their lives and reenter society; and promotes systemic change by educating the public and policymakers about the impact of incarceration on families and the connection between preserving family ties and reducing recidivism. They provide extensive range of counseling and support services to prisoners, ex-offenders, and families including childcare, visitation, transportation, parenting support groups, HIV/AIDS education and support; provides resources as well.
