This high-risk youth mentoring program offers intense, long-term mentoring for a select group of high-risk urban adolescents ages 11-18. Higher M-Pact also provides life and social skills training, spiritual development, education, job training, guidance counseling and recreational services. Our approach differs from the conventional Mentor v. Mentee relationship between adults and youth. We embrace a Mentor v. Mentor relationship that allows the youth to better communicate how the adults can assist them in meeting their needs through on-going individual and group interaction. As long youth remain in the Kansas City Metropolitan area, they remain in the program.
