This program can start while you are still in incarceration and continues through release and while on parole.

Check with your facility parole officer to see if you qualify while still incarcerated or your field parole officer to see if you can enroll in the program after you have been released. The Reentry Program works with you to create an Transitional Accountability Plan, which identifies your personal goals and needs. You will work with a Care Coordinator who will assist you with meeting the conditions of parole and the goals of the TAP by scheduling appointments with providers and identifying ways to overcome difficulties in areas of transportation, employment, family and more. Studies by such places as Stanford University have found that the first 72 hours are a critical and crucial time when you have the potential to seize the moment and lay good foundations for a new start.

You need to be connected with housing, counseling, employment, medical and other resources as quickly as possible. This is at a time when there may also be temptations and the potential to become overwhelmed or confused by the many choices available.
